Company Overview:

With a high demand for quality gypsum floor underlayments in the Northwest, Gypsum Floors of Idaho has been offering builders, architects and engineers high-quality, rock-solid and durable solutions with Hacker Floor Underlayments for more than two years. From multi-family projects to commercial buildings, Gypsum Floors of Idaho provides the proven solutions for sound-rated and fire-resistant gypsum floor underlayments. The company is also a commercial drywall contractor and member of the AWIC.

Whether your next project is new construction or renovation, Gypsum Floors of Idaho and Hacker Floor Underlayments can assist Architects, Engineers and Builders to meet demanding project specifications and provide design flexibility.

Section - 03 54 13 (03540) - Gypsum Cement Underlayment

- FIRM-FILL® Gypsum Concretes and GYP-SPAN® Radiant
- Integral part of 1 to 4 hour fire-rated assemblies; 84 UL listings
- Helps reduce sound transmission; improve STC and IIC ratings
- Strong, smooth surface ready for installation of virtually any finished floor covering

Section - 03 54 16 (03930) - Hydraulic Cement Underlayment

- DYNA-SCREED® Self-Leveling Underlayment and TRUE-SCREED® CLU
- Designed for renovation and repair projects
- Thin or thick applications to resurface deteriorated, distressed concrete floors
- Rapid drying, most floor covering installations in as little as 24 hours

Section - 09 80 00 (09830) - Acoustic Treatment

- Hacker Sound Mat II and Quiet Qurl™ Sound Control Mats
- Surpass numerous acoustical performance and budget needs
- Raises STC and IIC ratings to help meet building code requirements
- Use in conjunction with Hacker Floor Underlayments for superior sound control

About Hacker Industries, Inc.

Since 1983, Hacker Industries, Inc. has been the leading supplier of cementitious floor underlayments to the building community. With over a billion square feet installed nationwide, Hacker Floor Underlayments are non-structural cementitious concretes specially designed to meet the most demanding project specifications in new construction, renovation and repair for multi-family projects, custom homes, commercial and institutional buildings. Its premier line of FIRM-FILL brand gypsum concretes, GYP-SPAN Radiant, and sound control products set the bar for reliability and customer satisfaction.

New to the family of Hacker Floor Underlayments, Hacker Industries, Inc. recently introduced a new line of highly engineered, self-leveling underlayments – DYNA-SCREED® SLU and TRUE-SCREED® CLU. Ideal for fast-track concrete renovation projects, these two products repair distressed, uneven and cracked concrete surfaces.
