Company Overview:

Permafloors, Inc. enjoys the distinction of being the leading installer of gypsum concrete floor underlayments in a widespread territory covering the states of Montana, Idaho, Wyoming and Washington. Since becoming an Applicator of Hacker Floor Underlayments in 1995, Permafloors, Inc. has installed over 3 million sq. ft. feet of FIRM-FILL® Gypsum Concretes and GYP-SPAN® Radiant. Their mission is to provide quality floors while keeping construction schedules on time. Their highly coordinated office is on hand to communicate with project managers and make that goal a reality.

Whether your next project is new construction or renovation, Permafloors, Inc. and Hacker Floor Underlayments can assist Architects, Engineers and Builders to meet demanding project specifications and provide design flexibility.

Section 03 54 13 (03540) - Gypsum Cement Underlayment

- FIRM-FILL® Gypsum Concretes and GYP-SPAN® Radiant
- Integral part of 1 to 4 hour fire-rated assemblies; 86 UL listings
- Helps reduce sound transmission; improve STC and IIC ratings
- Strong, smooth surface ready for installation of virtually any finished floor covering

Section 03 54 16 (03930) - Hydraulic Cement Underlayment

- TRUE-SCREED® Cementitious Leveling Underlayment (CLU)
- Designed for renovation and repair projects
- Thin or thick applications to resurface deteriorated, distressed concrete floors
- Rapid drying, most floor covering installations in as little as 24 hours

Section 09 80 00 (09830) - Acoustic Treatment

- Hacker Sound Mat II and Quiet Qurl™ Sound Control Mats
- Surpass numerous acoustical performance and budget needs
- Raises STC and IIC ratings to help meet building code requirements
- Use in conjunction with Hacker Floor Underlayments for superior sound control

Permafloors, Inc.

Due to the cold climate, a large portion of Permafloors, Inc.'s business is drawn from custom home projects where radiant floor heat systems are specified. They also specialize in hotel and motel projects for sound and fire abatement. Permafloors, Inc. is a member of Southwest Montana Building Industry, Montana Building Association and Radiant Panel Association.

About Hacker Industries, Inc.

With over two billion square feet installed nationwide, Hacker Floor Underlayments are non-structural cementitious concretes specially designed to meet the most demanding project specifications in new construction, renovation and repair for multi-family projects, custom homes, commercial and institutional buildings. Hacker Industries, Inc.'s premier line of FIRM-FILL brand gypsum concretes, GYP-SPAN Radiant, cement-based leveling underlayments and sound control products set the bar for reliability and customer satisfaction.

Celebrating 25 years as the industry's leading supplier of poured Gypsum Concrete Underlayments, Hacker Industries, Inc. strives to meet the ever-changing needs of the building and construction industry. The recent introduction of FIRM-FILL® CMD, designed for light-gauge steel frame construction with a corrugated galvanized steel deck, and GREEN products that help obtain LEED credits, are two examples of Hacker Industries, Inc.'s continuing commitment to the advancement of flooring technology.
