#### About Hacker Industries, Inc.

With over two billion square feet installed nationwide, Hacker Floor Underlayments are non-structural cementitious concretes specially designed to meet the most demanding project specifications in new construction, renovation and repair for multi-family projects, custom homes, commercial and institutional buildings. Hacker Industries, Inc.'s premier line of FIRM-FILL brand gypsum concretes, GYP-SPAN Radiant, cement-based leveling underlayments and sound control products set the bar for reliability and customer satisfaction.

Celebrating 25 years as the industry's leading supplier of poured Gypsum Concrete Underlayments, Hacker Industries, Inc. strives to meet the ever-changing needs of the building and construction industry. The recent introduction of FIRM-FILL® CMD, designed for light-gauge steel frame construction with a corrugated galvanized steel deck, and GREEN products that help obtain LEED credits, are two examples of Hacker Industries, Inc.'s continuing commitment to the advancement of flooring technology.
