Company Overview:

A Licensed Applicator since 1995, Subfloor Systems installs the full line of Hacker Floor Underlayments in new construction, renovation and repair projects. They have successfully installed over 20 million square feet of Hacker Floor Underlayments in the Dallas/Fort Worth area. In addition to installing Hacker Floor Underlayments and sound control mat materials, Subfloor Systems provides a number of other construction services, including pumping exterior concrete decks, waterproofing balconies, breezeways and landings, concrete scoring, concrete staining services and repair and replacement of lightweight concrete.

Whether your next project is new construction or renovation, Subfloor Systems, Inc. and Hacker Floor Underlayments can assist Architects, Engineers and Builders meet demanding project specifications and provide design flexibility.

Section 03 54 13 (03540) - Gypsum Cement Underlayment

- FIRM-FILL® Gypsum Concretes and GYP-SPAN® Radiant
- Integral part of 1 to 4 hour fire-rated assemblies; 86 UL listings
- Helps reduce sound transmission; improve STC and IIC ratings
- Strong, smooth surface ready for installation of virtually any finished floor covering

Section 03 54 16 (03930) - Hydraulic Cement Underlayment

- TRUE-SCREED® Cementitious Leveling Underlayment (CLU)
- Designed for renovation and repair projects
- Thin or thick applications to resurface deteriorated, distressed concrete floors
- Rapid drying, most floor covering installations in as little as 24 hours

Section 09 80 00 (09830) - Acoustic Treatment

- Hacker Sound Mat II and Quiet Qurl™ Sound Control Mats
- Surpass numerous acoustical performance and budget needs
- Raises STC and IIC ratings to help meet building code requirements
- Use in conjunction with Hacker Floor Underlayments for superior sound control

Subfloor Systems, Inc.

Subfloor Systems, Inc. is a member of the Dallas and Tarrant County Apartment Associations, the Multi-Family Council of Homebuilders Association and the Building Office Management Associations. They have received the prestigious Dallas 100 award honoring the one hundred fastest growing private companies in Dallas two consecutive years in a row.

About Hacker Industries, Inc.

With over two billion square feet installed nationwide, Hacker Floor Underlayments are non-structural cementitious concretes specially designed to meet the most demanding project specifications in new construction, renovation and repair for multi-family projects, custom homes, commercial and institutional buildings. Hacker Industries, Inc.'s premier line of FIRM-FILL brand gypsum concretes, GYP-SPAN Radiant, cement-based leveling underlayments and sound control products set the bar for reliability and customer satisfaction.

Celebrating 25 years as the industry's leading supplier of poured Gypsum Concrete Underlayments, Hacker Industries, Inc. strives to meet the ever-changing needs of the building and construction industry. The recent introduction of FIRM-FILL® CMD, designed for light-gauge steel frame construction with a corrugated galvanized steel deck, and GREEN products that help obtain LEED credits, are two examples of Hacker Industries, Inc.'s continuing commitment to the advancement of flooring technology.
