HACKER INDUSTRIES, INC. ROLLS OUT TRAINING SEMINARS FOR LICENSED APPLICATORS

NEWPORT BEACH, CA-July 9, 2010-Hacker Industries, Inc., the leading supplier of cementitious floor underlayments and acoustical control products and cementitious self-leveling underlayments, announces a new series of comprehensive training seminars for Licensed Applicators beginning March 2006.

The 2-day training seminars will focus on the company's cement-based underlayment product line- TRUE-SCREED® Cementitious Leveling Underlayment (CLU) and DYNA-SCREED™ SLU. Hacker Industries, Inc.'s underlayment specialists, technicians and outside experts will provide professional instruction regarding preparation techniques and installation guidelines for the new hydraulic cement-based floor underlayments. Other topics, include step by step methods for successfully preparing slabs before installation, industry terminology, estimating and sales.

TRUE-SCREED® CLU and DYNA-SCREED™ SLU were recently introduced to the construction industry offering optimum compressive strengths, excellent bonding characteristics and quick drying time. Hacker Floor Screeds are ideal products for the re-surfacing of concrete floors with minimal labor and installation time and can be used in commercial, institutional, and residential applications.

For details about becoming a Licensed Applicator, contact Hacker Industries, Inc. at (800) 642-3455 or- email at info@HackerIndustries.com.

Hacker Industries, Inc.'s other products include FIRM-FILL® Gypsum Concretes and GYP-SPAN® Radiant, which are recognized nationwide for their inherent sound abatement and fire-resistant properties. For additional information on TRUE-SCREED® Cementitious Underlayment, DYNA-SCREED™ SLU or the complete line of Hacker Floor Underlayments, call (800) 642-3455, visit www.hackerindustries.com or email info@HackerIndustries.com
